### Visiting Hours

**Garacharma Farm: 8:30 AM – 4:30PM (Monday to Friday)**

**Sippighat Farm: 8:30 AM – 4:30 PM (Monday to Saturday)**

## Dr. APJ Abdul Kalam Dweep AyurVatika

Educate yourself about 100 medicinal plant species used for healthcare by the native tribes and settler communities of these islands. One may also see the sensor-based irrigation system watering these plants!

## Horticultural Plants Propagation Unit

Visit a unique nursery multiplying the underutilized native and exotic horticultural species and spices of the Andaman and Nicobar Islands. One may buy these plants for home or just learn about the techniques and have fun

## World Coconut Germplasm Centre

Witness a unique research area having about 1,000 coconut palms of unique germplasm collected from the Asia Pacific Island Nations as well as Nicobar groups of islands.

## Eaknath View Point

Relax and have a bird's eye view of the dense mangrove forest along the Andaman Trunk Road. Don't forget to create good memories by clicking selfies here!

## Dweep Ornamental Fish unit

Explore the freshwater fishes that are indigenous and endemic to the islands. You may also witness exotic fishes sourced from across the world

## Nakshatra Garden

Unite with the natural and cosmic world. Plant, protect, and preserve the biodiversity of your celestial home!
